

Do you want to work with a local company who supports their team members with integrity and respect? Do you want to build a career? Do you love working outdoors?

Our team at Lyons in Kamloops, BC is growing! We are looking for team members to join us in the following roles:

Landscape Foreman, Lead Hands and Labourers

What you will be doing:

- Install softscape and hardscape landscape for both residential and commercial projects
- Operate excavators and skid steers in a safe manner
- Travel when needed for out-of-town landscaping projects

What we need from you:

- Minimum 2 years experience required for Landscape Foreman role
- Strong knowledge of landscaping industry and installations
- Ability to operate a skid steer and excavator at an advanced level
- Strong leadership and mentorship skills
- Excellent communication and interpersonal skills
- Class 5 licence or higher with a clear driving record is required
- Ability to lift up to 25 pounds
- Ability to work efficiently under pressure and meet deadlines
- Ability to operate a smart phone or device for time tracking

Irrigation Technician

What you will be doing:

- Full residential and commercial irrigation installations
- Irrigation blow outs and start ups
- Irrigation system maintenance and repairs

What we need from our team:

- Minimum 2 years experience in full commercial and residential irrigation installations
- Certified Irrigation Technician Level 1 (Level 2 would be considered an asset)
- Ability to problem solve and prioritize tasks
- Ability to work efficiently independently and with a team
- Ability to understand and follow irrigation plans
- Valid Class 5 driver's licence with a clear driving record
- Strong work ethic and attention to detail

- Positive attitude and desire to be apart of an amazing company culture
- Ability to use a smart phone or tablet for communication and reporting
- Strong communication skills

Why work with the Lyons team?

- Competitive salaries with a benefits package
- Incentive and bonus programs
- Growth, training, and development opportunities
- Team Culture, we support one another to succeed!
- Team building, appreciation and celebratory events
- Locally owned and operated company who gives back to the community

Landscape Designer and Estimator

What you will be doing:

- Create beautiful landscape designs
- Meet with clients and supervisors to build successful landscape
- Prepare proposals and plans for clients

What we need from you:

- Strong background and excellence in the landscaping industry
- Focus on the client experience
- Experience in design and estimating landscape
- Creativity and vision to create beautiful landscape designs
- Experience using Dynascape, LMN, AutoCad, and/or Bluebeam Revu
- Strong attention to detail
- Strong communication and interpersonal skills
