

Hello, to all interested applicants!

Myself and my team are interested in adding a passionate and experienced landscape gardener to our team. Ideally the applicant is open to engaging with our clients and discussing their garden needs on a personal level. Our properties consist primarily of high caliber single family homes. Our clients on average have been with us for 9 years plus. The applicant will be asked to resume a role as both teacher to our staff and educator to our clients, leading daily work activities, communicating with owners on the state of their gardens and coordinating with our office.

Our primary working area is the Northshore / Vancouver. Our work vehicles are parked in North Vancouver with our office close to Park Royal.

Below is listing of standard criteria but what we really want is a colleague that thinks outside box to solve horticulture challenges!
