## **Plant Propagator: Plant Propagation from cuttings and seeds Aldergrove, BC, Canada**

JRT Nurseries Inc. has an immediate opening for an experienced **plant propagator** at our Aldergrove, BC location.

### **Job Summary:**

JRT Nurseries is an established re-wholesale nursery serving the Canadian and US market. We produce liners to small finished containers of conifers, woody ornamentals, perennials, grasses and small fruits.

### **Duties and Responsibilities:**

- **Propagate conifers, woody ornamentals, perennials, and grasses from conventional cuttings**
- Propagate conifers, perennials and grasses from seeds.
- Work closely with the general manager and production team to understand the required product and projection targets
- Develop the most efficient protocols to successfully and economically propagate the large quantities of many different plant species
- Manage the propagation crews to get the work done according to the set schedules
- Manage and maintain the ideal environment in the propagation houses
- Willing to work overtime when necessary during busy times of year

### **Credentials and Experience:**

- **Extensive plant propagation experience**
- Ability to work independently, manage and prioritize multiple projects, be a team player
- Working knowledge of Microsoft Office – Access, Excel, Word, Outlook
- Problem solving skills
- Good record keeping and R & D skills

### **Special Requirements:**

- Willingness to work overtime, holidays and weekends as requested during the busy time.
- Must be able to lift 40 pounds

**This is a full-time position. Aggressive Compensation package will be offered based on experience and industry knowledge.**
