

Nursery Supervisor

Due to our continued expansion, Exemplar Horticulture Ltd. is looking for a Nursery Supervisor to join our eager, hard working and reliable team. This is a full-time, year-round position with some weekend work during the busiest seasons.

What we offer:

A company culture that feels like family. Opportunities for learning and advancement as we grow. Medical/dental benefits after probationary period. Flexible work schedule for much of the year. We grow an exciting group of plants, lots of ornamental grasses and cutting-edge varieties of perennials, herbs, and vegetables.

What we're looking for:

This is an ideal position for someone with a few years of experience in horticulture, who's looking to take the next step and turn a job into a career. Maybe you've got some schooling, maybe you're a plant geek. Maybe you're in retail and want to get away from people. We get it. You love plants and figuring out problems. You'll be working with our production manager and junior grower to help create the spectacular plants that our customers have come to expect from us. You work with efficiency and might have some lean manufacturing training or mechanical aptitude. Day to day responsibilities will include overseeing and participating in various plant care activities: pruning, moving, spacing, and weeding. You will also help oversee staff in the shipping department during the spring season. A pesticide applicator's certificate would be handy but isn't a deal breaker. You'll be working inside and outside in all sorts of weather, so you should bring a good set of rain gear and a good attitude.

Job Type: Full-time, Permanent

Wage based on work experience. Extended Benefits available
